

Codex Task Instructions – M6.2.1 Part C

You are working inside this folder:

Module6/M6.2.1/PartC

Your job is to complete the assignment using the provided documents and place the finished output inside the **submit** folder.

IMPORTANT RULES

1. NEVER modify the original template files in the root folder.
2. ALWAYS work only on copies inside the **submit** folder.
3. NEVER modify these reference files:
 - Minor Works Contract.docx
 - Well street Drawings and specifications.pdf
 - BAA SubContractor Agreement.pdf
 - Module 6 - Project Task 2.1 - Managing Subcontractor Requirements (Part C).pdf
 - .srt or .mp4 files

These files are **reference only** and must not be edited.

FILES THAT MUST BE COMPLETED

Only the following file must be edited:

- M6_Cover_Assessment 2.1 Part C_V1.1.docx

Do NOT rename this file.

STEP 1 – PREPARE SUBMISSION WORKSPACE

If the **submit** folder does not exist, create it.

Copy the following template into the **submit** folder:

- M6_Cover_Assessment 2.1 Part C_V1.1.docx

All edits must be done inside the **submit** folder.

Do NOT modify the original template in the root folder.

STEP 2 – REVIEW PROJECT DOCUMENTS

Read the following files to understand the subcontractor obligations:

- Module 6 - Project Task 2.1 - Managing Subcontractor Requirements (Part C).pdf
- BAA SubContractor Agreement.pdf
- Minor Works Contract.docx
- Well street Drawings and specifications.pdf

Understand that:

- The builder has engaged **John Smith** as a subcontractor.
 - John will perform **carpentry work** on the Well Street project.
 - You must interpret the subcontract agreement to answer the questions.
-

STEP 3 – UNDERSTAND THE OBJECTIVE

The objective of this task is to demonstrate the ability to:

- interpret subcontractor agreements
- understand WHS obligations for subcontractors
- understand subcontracting limitations
- identify equipment responsibilities of subcontractors

You must answer the three questions provided in the template.

STEP 4 – COMPLETE THE ANSWERS

Open:

submit/M6_Cover_Assessment 2.1 Part C_V1.1.docx

Locate the section titled:

"Answer the questions for Part C below"

Answer all three questions clearly.

QUESTION 1

What is John's WHS/OHS rights and duties as a subcontractor?

Explain that John must:

- comply with WHS legislation
- follow site safety procedures
- ensure workers follow safe work practices
- report hazards and incidents
- cooperate with the builder and site supervisor
- ensure equipment used is safe and compliant

Also explain that John has the right to:

- work in a safe environment
 - receive safety information and site induction.
-

QUESTION 2

Is John permitted to subcontract any part of the Works further, should he choose to?

Review the subcontract agreement.

Explain that:

- subcontracting further work normally requires approval from the head contractor or client
 - written consent must be obtained before engaging additional subcontractors
 - John remains responsible for the performance of the work even if another subcontractor is engaged.
-

QUESTION 3

What are John's responsibilities regarding the supply of equipment?

Explain that subcontractors are responsible for:

- supplying their own tools and equipment
 - ensuring equipment is safe and maintained
 - ensuring equipment is suitable for the work
 - complying with safety regulations when using equipment
 - keeping equipment in good working condition.
-

STEP 5 – COMPLETE STUDENT DETAILS

Fill in the following fields in the document:

- Student Name
- Student Signature
- Date

Leave the trainer/assessor section blank.

STEP 6 – VERIFY SUBMISSION

Ensure the **submit** folder contains:

- M6_Cover_Assessment 2.1 Part C_V1.1.docx

Verify that:

- all three questions are answered
 - answers reference contract obligations
 - student declaration is completed
 - formatting is readable.
-

FINAL GOAL

Produce the **completed assessment document** inside the **submit** folder ready for submission to the LMS.
