

Codex Task Instructions -- M6.2.2 Part B

You are working inside this folder:

Module6/M6.2.2/PartB

Your job is to complete the assignment using the provided documents and place the finished outputs inside the **submit** folder.

IMPORTANT RULES

1. NEVER modify the original template files in the root folder.\
2. ALWAYS work only on copies inside the **submit** folder.\
3. NEVER modify these reference files:
 - Module 6 - Project Task 2.2 - Managing Technical and Legal Reports (Part B).pdf\
 - Oskar_Court_Construction_Plan_v1.1.pdf\
 - Oskar_Court_Engineering.pdf\
 - Lot 31 3 Oskar_Court_Specifications_v1.1.pdf\
 - Costs of Construction Template.xlsx\
 - .srt or .mp4 files

These files are **reference documents only and must not be edited**.

FILES THAT MUST BE COMPLETED

Only the following files must be edited or created.

Templates to edit:

- M6_Cover_Assessment 2.2 Part B_V1.1.docx\
- Costs of Construction Template.xlsx

New files to create:

- Project Brief.docx\
- Planning Application.docx\
- Cover Letter.docx

Do NOT rename the template files.

STEP 1 -- PREPARE SUBMISSION WORKSPACE

If the **submit** folder does not exist, create it.

Copy the following templates into the **submit** folder:

- M6_Cover_Assessment 2.2 Part B_V1.1.docx\
- Costs of Construction Template.xlsx

Create the following new files inside the **submit** folder:

- Project Brief.docx\
- Planning Application.docx\
- Cover Letter.docx

All edits must occur **inside the submit folder only**.

STEP 2 -- REVIEW PROJECT DOCUMENTS

Read the following files to understand the construction project:

- Module 6 - Project Task 2.2 - Managing Technical and Legal Reports (Part B).pdf\
- Oskar_Court_Construction_Plan_v1.1.pdf\
- Oskar_Court_Engineering.pdf\
- Lot 31 3 Oskar_Court_Specifications_v1.1.pdf

Understand that:

- The project is a residential dwelling at **Lot 31, 3 Oskar Court**
 - You are acting as the **Project Manager**
 - You must prepare documentation for the client to approve the project.
-

STEP 3 -- ANALYSE SITE CONDITIONS

Review the specifications and engineering documents to identify:

- Soil classification\
- Site slope\
- Retaining wall requirements\
- Drainage requirements\
- Structural slab design\
- Footing system\
- Any special construction allowances

Document these findings in the **Project Brief**.

STEP 4 -- PREPARE PROJECT BRIEF

Open:

submit/Project Brief.docx

Include the following sections.

1. Project Overview

Describe the proposed construction project and the role of the project manager.

2. Site Conditions

Explain site characteristics based on engineering and specifications.

Examples may include:

- reactive clay soil\
- site slope conditions\
- drainage requirements\
- retaining wall construction\
- foundation requirements

3. Specific Construction Allowances

Identify additional engineering allowances such as:

- waffle raft slab\
- screw piles\
- articulation joints\
- drainage allowances\
- retaining walls

Explain why these are necessary.

4. Project Plans and Specifications

Summarise the key project documentation including:

- Site plan\
- Floor plans\
- Elevations\
- Structural engineering drawings\
- Construction specifications

Explain how these documents guide the construction project.

STEP 5 -- COMPLETE CONSTRUCTION COST ESTIMATE

Open:

submit/Costs of Construction Template.xlsx

Estimate the **probable cost of construction**.

Break the cost into categories such as:

Site preparation\

- site clearing\
- excavation\
- earthworks

Substructure\

- footings\
- slab construction\
- piling

Structure\

- framing\
- roofing\
- wall construction

Building services\

- plumbing\
- electrical\
- drainage

Internal works\

- plastering\
- flooring\
- joinery\
- painting

External works\

- retaining walls\
- driveways\
- landscaping

Ensure the spreadsheet includes:

- item description
- estimated cost per item
- total estimated project cost

Save the spreadsheet.

STEP 6 -- PREPARE PLANNING APPLICATION

Open:

submit/Planning Application.docx

Include the following information.

Property details\

- Lot number\
- Address\
- Project description

Development description\

- Construction of a new residential dwelling

Supporting documentation\

- site plan\
- architectural drawings\
- engineering documentation

Planning considerations\

- zoning compliance\
- building setbacks\
- site coverage\
- drainage requirements

Ensure the application includes sufficient information for council review.

STEP 7 -- PREPARE COVER LETTER

Open:

submit/Cover Letter.docx

Write a professional letter to the client requesting approval for the project.

Include:

Introduction\

- introduce yourself as the project manager

Project summary\

- briefly describe the proposed dwelling construction

Attached documentation\

- project brief\

- cost estimation\
- planning application\
- project plans and specifications

Approval request\

- request client approval to proceed with the project.

STEP 8 -- COMPLETE COVER SHEET

Open:

submit/M6_Cover_Assessment 2.2 Part B_V1.1.docx

Fill in:

- Student name
- Student signature
- Date

Leave trainer/assessor sections blank.

STEP 9 -- VERIFY SUBMISSION

Ensure the **submit** folder contains:

- Project Brief.docx\
- Costs of Construction Template.xlsx\
- Planning Application.docx\
- Cover Letter.docx\
- M6_Cover_Assessment 2.2 Part B_V1.1.docx

Check that:

- all report sections are completed
- cost estimates are included
- planning application is filled
- formatting is readable

Do NOT modify original files outside the submit folder.

FINAL GOAL

Produce the completed assessment documents inside the **submit** folder ready for submission.
