? What do I need to do?

The slab has been poured and the client has visited the site to check up on progress. They have identified that the plans specified that a concrete slab of 150mm thickness would be provided to support the hot water service which would be integrated into the main slab, however when they have inspected it they have measures the thickness as 120mm. You have confirmed that the slab is 120mm.

Following the dispute resolution procedure in the [BAA New Homes Contract](https://buildersacademy.instructure.com/courses/5418/files/2578297?wrap=1)
