(https://buildersacademy.instructure.com/courses/5418/files/2863375/download?download_frd=1) and attach it along with other required documents for this assessment. Ensure you complete all required information.

? What do I need to do?

Prepare a construction environmental management plan (CEMP) for one of your construction projects.

You will need to cover:

- Environmental prohibitions or restrictions to be applied within specific projects
- Formally or informally gathered information concerning environmental issues and requirements
- Key people to be consulted or included in decision making
- Specific forms of activity to be pursued or which are subject to monitoring or evaluation
- Timeframes and key environmental benchmarks to be achieved.

The structure of your CEMP should follow:

Abstract

1. Project background
2. Construction Environmental Management Plan purpose
3. Project scope and objectives
4. Key members of project team
5. Legislation – Australian standards
 - A. Acoustics
 - B. Air quality
 - C. Demolition
 - D. Emergency procedures guides
 - E. Environmental auditing
 - F. Storage and handling
 - G. Commonwealth legislations
 - H. Other relevant federal legislation
 - I. State legislation
 - J. External codes of practice
6. Environmental indicators
 - A. Some potential causes of environmental impact
7. Risk assessment
8. Data gathering control measures and procedures
 - A. Air quality

- B. Soil quality
- C. Water quality
- D. Noise emissions
- E. Waste management
- 9. Training and awareness
- 10. Communication strategies
 - 1. Incident reporting
- 11. Audit procedures
- 12. Change procedures
- 13. Emergency and remediation response strategies
- 14. OHS
- 15. Review processes and procedures submitting revised plans
- 16. SWOT analysis of the process
- 17. Monitoring
- 18. Conclusion
- 19. References

✓ **How will I be assessed for this task?**

For this task you are required to submit the following:

- Completed Construction Environmental Plan
- A Completed Coversheet /Answer Sheet: **M6_Cover_Assessment 2.3_V1.1**
(<https://buildersacademy.instructure.com/courses/5418/files/2863375?wrap=1>) ↓
